REPLY TO THE ATTENTION OF:

HSRL-6J

DATE: 14 June 1993

SUBJECT: Submission of Installation Restoration Program Reports and Miscellaneous Documents.

FROM: Laura J. Ripley, Federal Facilities Project Manager *LJ Ripley*

TO: Ted Lietzke

Per your request, I am submitting Glenview Naval Air Station Installation Restoration Program Reports recently located in U.S. EPA files. These reports include: Site Investigation Report, Preliminary Assessment Report, Environmental Soil Boring Investigation, Health and Safety Plan, Plan of Action Report for Site Inspection. In addition, the Initial Assessment Study for Great Lakes Naval Training Center, and the recently received Management Action Plans for Chanute Air Force Base and Rickenbacker Air National Guard are also being included in this package.

Unfortunately, I was unable to locate the comments U.S. EPA made for the Glenview Naval Air Station's Site Investigation report. I will continue to look for this item. If you need any additional information, please feel free to contact me: (312)886-0850.
